

Manhattan Neighborhood Exercise

SUBWAYS:

- 1) What subway lines travel through the UWS? What colors are they? What are the express stops?

- 2) What subway lines travel through the UES? What colors are they? What are the express stops?

- 3) If you are traveling North on the A Train, what stop would follow Columbus Circle? What other train takes a similar path?

- 4) Which trains stop at the Times Square station?

- 5) What is the only subway station the E and F Trains share in Manhattan? Note the route of the E Train – what is interesting about it?

- 6) At which subway stations does the 1 Train go in a different direction (separate) from the 2/3 Trains? What are the last 2 southern stops on the 1 Train?

- 7) What are the two “Gray Line” subways? What is interesting about them?

- 8) If a client rents with us at 45 Wall Street, what subways are nearby?

COOPER & COOPER

9) At what subway stop can you transfer from the E Train to the B/D Trains? Why might this transfer be helpful to a client wanting to live on the UWS who works at 53rd & Lex?

STREETS & NEIGHBORHOODS:

1) In Manhattan, most of the roads are either Avenues or Streets. Which run North/South and which run East/West? 420 West 42nd Street is between which Avenues? What side of the street is it on? 155 West 21st Street is between which Avenues? What side of the street is it on?

2) In Midtown West, the North/South Avenues are named by number (with the exception of Broadway). What Avenues span MTW?

3) Where is Columbia University? What streets and avenues does the campus span?

4) What are the North, South, East & West street borders of Central Park?

5) What neighborhoods are among the southernmost in Manhattan?

6) Many neighborhoods have funny names. What do these mean:

FiDi:

SoHo:

TriBeCa:

Nolita:

BPC:

7) If a client is looking to live on the East Side, name 4 neighborhoods that could work?

COOPER & COOPER
